Methodology

Ascend2 benchmarks the performance of marketing strategies, tactics and the technology that drives them using a standardized online questionnaire and a proprietary 3-Minute Survey format.

This survey was fielded to a panel of marketing influencers and research subscribers during the week of January 1, 2018.

ACCOUNT-BASED MARKETING STRATEGY

Half of marketing influencers consider aligning their initiatives with sales teams a top priority for an ABM strategy in 2018.

But what priorities should your ABM strategy include?

To help you answer this question, Ascend2 and our Research Partners fielded the Account-Based Marketing Strategy Survey. We thank the marketing influencers responding to this survey for sharing their valuable insights with us, and you.

While aligning sales and marketing initiatives is a top priority for half (50%) of marketing influencers, they also want credit where credit is due. For this reason, 41% consider attributing marketing efforts to revenue another top priority for ABM.

What are the TOP PRIORITIES for an ABM strategy in 2018?

SUCCESS ACHIEVING PRIORITIES

A total of 95% of marketing influencers say an account-based marketing strategy is successful at achieving the top priorities, with 40% describing their ABM strategy success as best-in-class.

How SUCCESSFUL is an ABM strategy at achieving the top priorities?

CHALLENGING BARRIERS TO SUCCESS

39% of marketing influencers say attributing marketing efforts to revenue is a challenging barrier to the success of an ABM strategy. Analytics that track and attribute marketing efforts to sales revenue is a feature required of many marketing technology systems today.

What are the most CHALLENGING BARRIERS to the success of an ABM strategy?

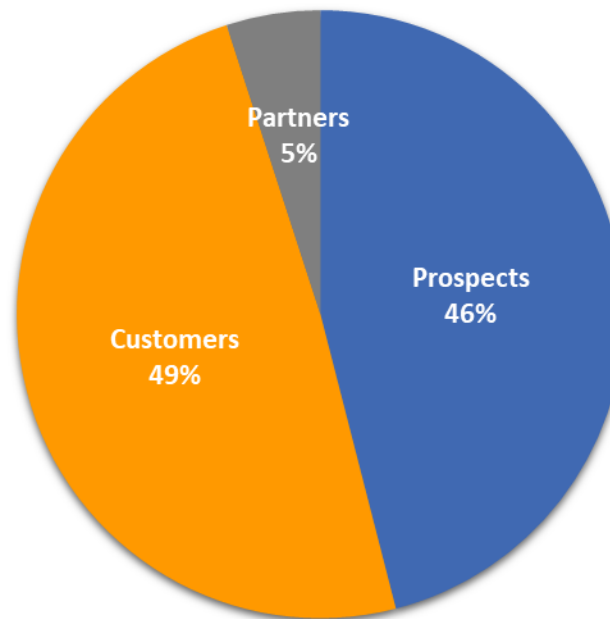

PRIMARY TARGET SEGMENTS

Marketing influencers say a successful account-based marketing strategy targets customers and prospects nearly equally (49% and 46% respectively). Channel partners are a primary ABM target segment for only 5% of marketing influencers.

Which is the PRIMARY SEGMENT for a successful ABM strategy to target?

ABM ENGAGEMENT EFFECTIVENESS

Personalized content delivered to the right targets at the right time through segmented email are the most effective digital channels used for engaging ABM accounts. Social media has become another effective channel for nearly half (45%) of marketing influencers.

What are the most EFFECTIVE DIGITAL CHANNELS used for engaging ABM accounts?

HOW EFFECTIVENESS IS CHANGING

For 93% of marketing influencers, the effectiveness of digital channels used for ABM account engagement is changing for the better, with about one-third (34%) describing the increase in effectiveness as significant.

How is effectiveness CHANGING for the digital channels used for ABM account engagement?

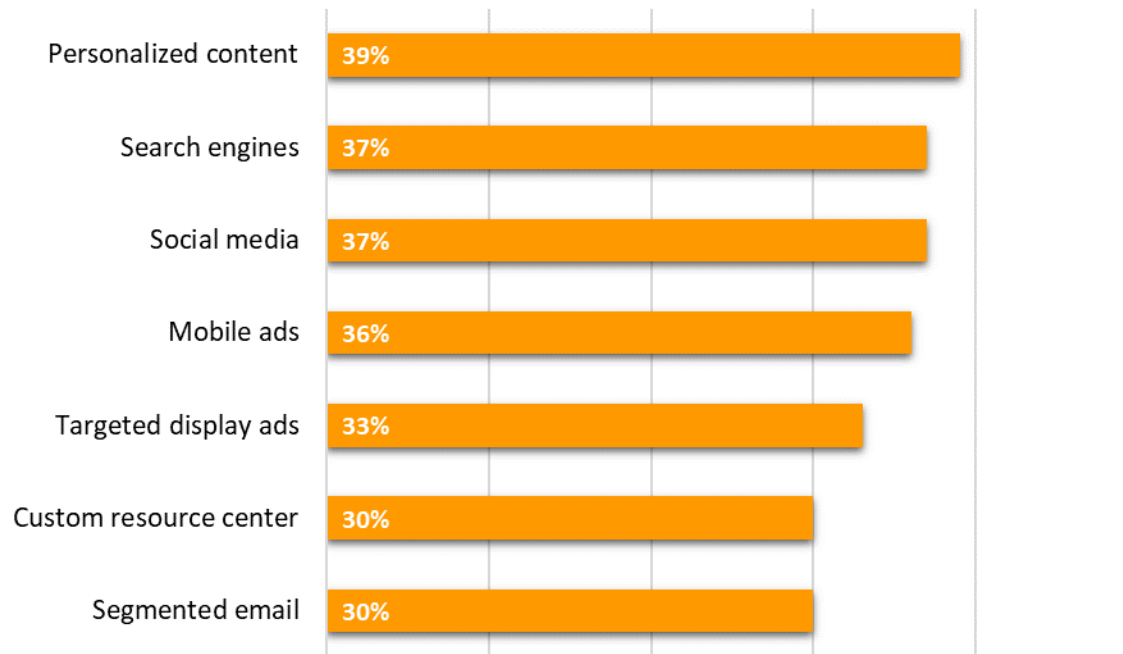

ABM ENGAGEMENT DIFFICULTY

Creating personalized content is not only the most effective digital channel used, it is also the most difficult to execute for 39% of marketing influencers. Tied closely for second place with 37% is the execution of the search engine and social media channels for engaging ABM accounts.

What are the most DIFFICULT DIGITAL CHANNELS to execute for engaging ABM accounts?

RESOURCES USED

A lack of in-house skills and capabilities is often the reason marketing influencers outsource all or part of the execution of digital channels for engaging ABM accounts. A collaboration between outsourced and in-house resources to execute channels for ABM engagement is used by 60%.

Which best describes the RESOURCES used to execute digital channels for ABM account engagement?

EFFECTIVENESS VERSUS DIFFICULTY

Channels that are much more effective than they are difficult to perform (segmented email for example), are more likely to be included in an effective ABM strategy and less likely to require outsourcing to a specialist.
